- Provide additional evidence and information to support that the addresses currently suspended are not served.
- If you are agreeing to revise your application and take out the suspended addresses from the application, please submit the following:
 - Revised list of all remaining addresses for the application without the suspended addresses.
 - The revised number of unserved addresses and total number of addresses based on the modifications. If the number of unserved addresses does not change, please note that. If no information is given, it will be assumed that the addresses that were removed are unserved.

 - This information **MUST** be submitted in the Challenge Process Excel Template for Suspended applications. This spreadsheet can be found at the BroadbandOhio Website under the Challenge Process tab <https://broadband.ohio.gov/grant-opportunities/grant-opportunities-1/grant-opportunities-1>.
- If the applicant has one or more applications that are being revised, the applicant must provide this information separately for each challenged application.
- No additional addresses may be added to the application. The remaining addresses must be addresses that were submitted in the original application and not included in the challenge finding of the authority.
- If the applicant is going to amend the requested dollar amount, it cannot exceed the original request.
- If BroadbandOhio does not receive a response from you that includes the above information, **your complete application will be withdrawn** and will not move forward to the scoring process.
- Please send all information to BroadbandOhio@development.ohio.gov

Next Steps

The suspended and revised applications will go before the authority again in March for a final ruling. The applicants and challenging applicants will be provided a copy of that ruling after the meeting occurs. All rulings will be posted at [Broadband.ohio.gov](https://broadband.ohio.gov).
